Fog	Light rain showers	Heavy rain showers	Heavy rain showers	Heavy rain showers	Mist
Precipitation probability					
10%	50%	60%	50%	50%	30%

Forecast for Monday 23 May 2022

Weather: Mist and low cloud will be quite widespread first thing with some drizzle or light rain in places, eastern ranges may be clearer to start the day. The day will brighten up but it will be quite cloudy for most areas, perhaps a few sunny intervals in places. Showers developing by mid morning, perhaps heavy around the Angus Glens, Sidlaws or Loch Muick munros. Turnin drier by evening.

Chance of cloud-free hill tops above 800m: 40% improving to 80% in the morning, a lot of low cloud and mist for the early morning affecting the summits.

Low Cloud and visibility: Scattered or broken low cloud above 600m will slowly thin and become patchier in the morning. Visibility will be moderate and quite hazy throughout the day and may turn poor in any heavy afternoon showers. Further low cloud is likely in the evening especially around any showers that develop.

Met Office Aberdeen Meteorologist's View
Feeling quite cool on the summits but winds will be quite light at all levels, any heavy afternoon showers might be quite slow moving.

Forecast for Tuesday 24 May 2022
Weather: A dry and bright start to the day but a few light showers soon developing and these may be slow to clear in the light winds, a few heavier showers developing in the afternoon and evening.

Maximum wind: Northwesterly 10-15mph

Chance of cloud-free hill tops above 800m: 60 improving to 90%, most low cloud lifting above the summits during the morning, a few patches forming in any heavier afternoon showers.

Low Cloud and visibility: Scattered low cloud will affect western summits in the early morning but this will lift and clear leaving very good general visibility for all ranges.

Temperature: **Glens:** Plus 6 rising to 12 Celsius.
At 800m: Plus 2 rising to 5 Celsius.
Freezing level: Above all summits.
